DIOGO CAMPOS PALHARES

DevOps Engineer | AWS | Terraform | Kubernetes

Belo Horizonte, MG, Brazil | (31) 99714-3530 | diogocampos3210@gmail.com

linkedin.com/in/diogo-palhares | github.com/diogo-palhares

PROFESSIONAL SUMMARY

DevOps Engineer with hands-on experience designing, automating, and operating cloud infrastructure on **AWS**. Strong background in Infrastructure as Code with Terraform, container orchestration with Kubernetes (EKS), and CI/CD pipeline design. Proven track record of reducing deployment time, improving system observability, and increasing reliability through automation and cloud-native best practices. **AWS Certified AI Practitioner**, with a focus on deepening expertise across the AWS ecosystem.

PROFESSIONAL EXPERIENCE

DevOps Engineer — CI&T

March 2025 – Present | Belo Horizonte, MG, Brazil

- Designed and maintained CI/CD pipelines using **Azure DevOps Pipelines** and **Terraform** to provision **AWS** infrastructure, reducing deployment time by ~47% and eliminating manual steps across multiple environments.
- Built and operated a Kubernetes-based observability platform on **AWS EKS** (Grafana, Prometheus, Loki, Kafka, Alloy, Fluent Bit), improving incident detection time and increasing monitoring coverage across critical systems.
- Led the migration of the observability stack **across AWS regions**, rebuilding the EKS cluster and reducing downtime during failover scenarios while improving system resilience.
- Implemented **AWS WAF** from scratch, defining custom rules to enhance application security and mitigate common web threats (OWASP Top 10).
- Developed Docker-based solutions, including sidecar containers with Python scripts for automation, log processing, and custom metric collection.
- Improved system reliability and reduced manual intervention through automation and adoption of DevOps and cloud-native best practices on AWS.

EDUCATION

Pontifícia Universidade Católica de Minas Gerais (PUC Minas)

Bachelor's Degree in Information Systems | February 2023 – December 2026

Centro Federal de Educação Tecnológica de Minas Gerais (CEFET-MG)

Integrated High School with a Technical Degree in Electrical Engineering | February 2019 – December 2022

SKILLS & TOOLS

Cloud & Infrastructure:	AWS (EKS, WAF, multi-region), Terraform, Infrastructure as Code (IaC)
Containers & Orchestration:	Kubernetes, Docker, Helm, sidecar patterns
CI/CD & Automation:	Azure DevOps Pipelines, Git, automated deployments
Observability & Security:	Grafana, Prometheus, Loki, Kafka, Fluent Bit, Alloy, AWS WAF
Operating Systems:	Linux (administration, shell scripting)
Programming:	Python, C#, SQL, JavaScript
Languages:	Portuguese (native), English (advanced)
Soft Skills:	Problem solving, teamwork, communication, leadership

CERTIFICATIONS & COURSES

- **AWS Certified AI Practitioner** — Amazon Web Services (2026)
- **Linux System Administration** — Red Hat
- **CS50's Introduction to Programming with Python** — Harvard University
- **English — Basic to Advanced** — KNN Idiomas
